IMBA MX Masters

Dear sports friends,

We are very sorry about the cancellation of the largest IMBA event, the MX Masters. It was supposed to be the highlight of the IMBA season. It was also meant to be the only race for all classes except the Ladies category. If this race does not take place, it would mean that the idea of IMBA and the entire organization loses its purpose, and there would be no point in continuing. Therefore, we are coming with a proposal. ČAM is able to organize a simplified version of the MX Masters. The following text is a suggestion for discussion and is not definitive. Due to the space available in the riders' paddock, we would not organize the Side classes. The Ladies have their own IMBA series. Furthermore, it would be necessary to adjust the prize money or return to the financing method used for last year's MX Masters, where each federation additionally paid a contribution to the MX Masters. We are fully flexible with the date. For us, the preferred date would be the end of September or beginning of October. We would hold the races in Krásný Dvůr, where there are excellent facilities. The venue has showers, toilets, drinking water, and utility water. This track also hosted, in our view, the best IMBA Open races of recent years, specifically in 2019, with a participation of 30 riders.

However, we need to know from you, the federations, whether you want to participate in this event. If you say: yes, organize it, we will come — then we will do everything we can to make it a top-level event. But if there are arguments that it is too far or there are other obstacles, then we must all deeply consider whether it makes sense to continue with IMBA at all.

Thank you,

Jan Šefl
